

# Impression Plus Series®

## 1.25" Softener

Designed for high flow rates

SOFTENERS

**IMPRESSION**  
A Water-Right Brand *Plus*

The 1.25" Impression Plus Series® water softeners produce the soft water you desire — from a well or from city water. The easy-to-read backlit screen and user-friendly console allows you to monitor all operating functions.

#### System Features:

- 1.25" valve opening designed for high flow rates
- Backlit display screen
- Meter monitors and self-adjusts regeneration cycles based on household trend of water use
- Easily programmed for optimum performance
- Extended lithium battery backup
- Flexible "adjustable cycle sequence" programming — saves salt and water
- Advanced history and diagnostic screens
- Service Alarms

**system**  
*benefits*

*A Single System that Softens Residential Waters*

- Reduces hardness
- Softens household water using minimal salt and water
- Experience cleaner clothes, softer hair, soft towels, residue-free showers, richer lathers and more

**Water Right**  
The Right Water For Life

## Impression Plus Series® 1.25" Softeners

### *The Meter*

Water usage is electronically monitored and the system is automatically regenerated based on actual water consumption. The controller can anticipate higher water usage based on previous trends and regenerate the system, as needed, to ensure the availability of quality water. Likewise, when water usage is low, the system regenerates less often, saving on salt and water.

### *The Electronics*

The microprocessor captures all operations, including gallons per day, total gallons, peak flow rates, and total regenerations. Time and history is held in memory and protected by a built-in battery backup.

### *The 1.25" Control Valve*

A rugged, Noryl™ control valve handles very high flow rates without dropping household water pressures.

### Enjoy a Softer Lifestyle

Impression Plus Series® 1.25" water softeners are built to last, easy to operate, and provide the quality water you need for everyday life. Your water will now perform at peak — creating richer lathers by using less soap, rinsing cleaner without film and residue and even protecting your household plumbing from staining, scale and mineral deposits.

The softener also features an easy to read backlit display. The features and performance of Impression Plus can't be beat.
